a teacher

a workman

a conductor

a police officer

a nurse

Occupation Flashcards

Additional Information

- We have a two-per-page set of occupation flashcards ready for downloading. There is also a black and white version for both sizes.
- Occupation flashcards are an excellent way of practising Present Simple questions and statements. Your students could make sentences imagining the typical routine of some of these people. Alternatively, 'guess the job' works well.
- The vocabulary listed below the flashcard is only a suggestion. We weren't sure what to put for a workman - it seems awfully sexist! (Other words such as a police officer and fire-fighter are in the 'gender neutral' form.) Any suggestions would be gratefully received.
- Depending on the mother tongue of your students, you may need to repeatedly stress that jobs come with articles. (He's **a** police officer.)
